

Rowena Patrao **Chief Technology Officer (CTO)**

Year of birth: 1976

Nationality: Indian

Rowena Patrao has been Chief Technology Officer (CTO) of Scout24 since July 2021. In this position, Patrao has overall responsibility for the technology department of the group. Patrao has many years of experience in leadership and software development for start-ups and global tech companies, including Microsoft (Redmond and Bangalore) and Amazon (Seattle). Amongst other things, Patrao worked on initiatives for Exchange Server, Windows Media, Windows Phone and Bing Ads at Microsoft for over 11 years. She also helped lead development efforts for the release of Kindle Fire, Amazon's first tablet eReader. At VMware India, Patrao focused on transforming on-premise solutions to scalable, cloud-based architecture. Patrao holds a Bachelor's and Master's degree in Computer Science and Engineering.

Rowena Patrao is a member of Scout24's Executive Leadership Team.
