3.1. Basis for preparing the annual financial statements and summary of essential accounting methods

3.1.1. General information

With the shareholder resolution of 4 September 2015, and effective as of 10 September 2015, Asa NewCo GmbH, Munich, was converted into a joint stock company. At the same time, Asa NewCo GmbH, Munich was renamed as Scout24 AG, Munich.

Scout24 AG (hereinafter also "Scout24" or "the Company") is a joint stock company based in Germany as defined in the German Stock Corporation Act (AktG) with its registered office in Munich. The business address is: Dingolfinger Str. 1-15, 81673 Munich. The Company is registered in the commercial register of the Munich District Court under the number HRB 220696.

The object of the Company is the acquisition and holding of investments in other companies as well as provision of management services for direct and indirect subsidiaries.

Starting on 1 January 2015, the financial year of Scout24 AG, Munich, is the calendar year from 1 January to 31 December. The previous financial year was a short financial year from 1 April to 31 December 2014. Thus the comparative figures of the prior period cover the period from 1 April to 31 December 2014.

As the parent company, Scout24 AG, together with its direct and indirect subsidiaries, forms the Scout24 Group, which is a leading operator of digital marketplaces with its focus on real estate and automobiles in Germany and several selected European countries. An overview of the companies of the Scout24 Group is provided in the Table "List of shareholdings of Scout24 AG".

The company is a listed stock corporation as defined in section 264 of the German Commercial Code (HGB), and in conjunction with section 267 para. 3 sentence 2 HGB always qualifies as a large corporation.

The profit and loss account is structured in accordance with the total cost type of results accounting.

The annual financial statements and management report have been prepared in accordance with the guidelines for rendering of accounts of sections 242 ff and sections 264 ff HGB and the supplemental guidelines of sections 150 ff AktG.

The annual financial statements as of 31 December 2015 have been compiled in euros. Unless stated otherwise, figures are always expressed in TEUR. The tables and information presented can contain rounding differences.

Since 1 October 2015 the shares of Scout24 AG, Munich have been traded on the Prime Standard of the Frankfurt Stock Exchange. The subscription period for the Scout24 shares ran from 21 September to 31 September 2015. In total 7,600,000 shares from a capital increase, as well as 26,000,000 shares from the holdings of existing shareholders were placed with national and international investors. The greenshoe option granted to the syndicate banks by the selling shareholders (Asa HoldCo GmbH, Frankfurt am Main and Deutsche Telekom AG, Bonn) to cover any over-allotments, was partially exercised in the scope of 552,556 ordinary shares.

The subscription price was €30.00 so that additional funds totaling €228 million were provided to the company from the capital increase.

Effective 21 December 2015 Scout24 AG, Munich was included in the SDAX.

The management board approved the annual financial statements for publication on 17 March 2016.

3.1.2. Essential accounting and valuation basis

The accounting and valuation methods remained unchanged relative to the previous year, with the exception that the thereof information shown in the balance sheet and profit and loss account in the previous years, starting from 2015 are explained in the Notes, and were made under the assumption of the going concern principle (section 252 para. 1 no. 2 HGB).

Balance sheet

Tangible fixed assets are valued at acquisition costs, reduced by scheduled linear depreciation and impairment losses. Depreciation was calculated in accordance with the anticipated useful life, which is between 3 and 13 years for moveable assets. In the case of presumable permanent impairment of value non-scheduled depreciation is taken.

Low-value assets (acquisition costs of more than €150 to €1000) are recognized in a collective item and are depreciated over five years. Assets with acquisition costs up to €150 are recognized as an expense.

Advance payments are carried at their nominal value.

Repair and maintenance costs are carried as expenses at the time they are incurred.

Financial investments are valued at acquisition costs or at the lower fair value.

Loans are recognized at the nominal value.

Receivables and other assets are reported at nominal value with deduction of impairment allowances.

Liquid funds are recognized at the nominal value.

Prepaid expenses include payments made prior to the balance sheet date, which represent expenditure for a certain time after this date.

Equity capital is reported at the nominal amount.

Provisions are stated in the amount required to settle the obligation based on prudent commercial assessment. Future price and cost increases are taken into account, where there is sufficient objective evidence that they will occur.

Provisions maturing in more than one year are discounted according to their remaining maturities, using the average market interest rate of the past seven financial years published by the German Central bank.

Liabilities are stated at the settlement amount.

Deferred taxes arise from temporary differences between the german commercial book value of assets, liabilities and deferred income and the tax basis amounts of such assets and liabilities, as well as from tax losses carried forward. After netting tax assets and tax liabilities there is a net asset position, which in accordance with the option cited in section 274 para. 1 sentence 2 HGB, is not stated. Deferred taxes were valued on the basis of a tax rate of 31.44% (previous year: 31.47%). These include corporate tax, trade tax, and the solidarity surcharge of the fiscal unit of Scout24 AG. Deferred tax assets occur essentially from the deferral on the interest carry-forward; the deferred tax liabilities arise particularly from the different valuation of the intangible assets. The deferred taxes of the controlled companies have also been included.

Accrued income includes revenues that represent operating income for a specific period after the reporting period.

Profit and loss account

Sales revenues are recognized when services have been provided or goods delivered and the risk has been transferred to the beneficiary or the buyer. Sales revenues are recognized excluding value added tax, discounts, and credit memos.

Derivative financial instruments

For derivative financial instruments the fair value is determined. The option specified in section 284 para. 2 no. 1 HGB for creation of valuation units is not exercised. For financial derivatives with a negative fair value a provision for anticipated losses is made in the same amount. For a positive fair value due to the realization principle derived from the imparity principle and the principle of unrecognized pending transactions, the financial derivative is not recognized.

Foreign currency translation

Business transactions in foreign currency are shown at the time of the transaction with the exchange rate valid at that point in time.

Long-term foreign currency receivables are stated at the foreign exchange rate at the time the receivable is created or at the lower fair market value, taking as a basis the

average spot exchange rate on the balance sheet date (impairity principle). Short-term foreign currency receivables (residual term of one year or less) as well as liquid funds or other short-term assets in foreign currencies are converted at the average spot exchange rate on the balance sheet key date.

Long-term foreign currency liabilities are valued at the foreign exchange bid rate at the time the liability is created or at the higher market value on the balance sheet key date, taking as a basis the average spot exchange rate on the balance sheet date (impairity principle). Short-term foreign exchange liabilities (residual term of one year or less) are converted at the average spot exchange rate on the balance sheet key date.

3.2. Notes to the balance sheet

Fixed assets

The classification of and changes in the individual fixed asset items, including the depreciation are shown in the attached fixed asset movement schedule in Attachment I.

In the financial year and in the previous year there was no extraordinary depreciation.

Management Board compensation

The Supervisory Board sets the compensation for the Management Board members. In doing so, the Supervisory Board pays attention - with due regard of the standardized requirements set out in Article 87 section 1 Stock Corporation Act [AktG] - to the appropriateness of the compensation in terms of the tasks of the individual Management Board members, personal performance, the economic and business situation, the company's success and profitability, and future prospects, as well as the market-conformity of compensation taking into account the comparable environment, and the compensation structure otherwise applicable within the company.

The compensation scheme for the Management Board of Scout24 AG is oriented to creating an incentive for performance-based corporate management. It comprises fixed and performance-based components. The total compensation including all variable compensation cannot exceed 3.25 times fixed compensation in this context. Management Board compensation comprised the following components in the 2015 financial year:

Fixed compensation

The Management Board members received a fixed basic salary based on the respective Management Board members' areas of activity and responsibility, and is paid monthly.

One-year variable compensation

One-year variable compensation existed in the form of an annual bonus, whose level is measured on the basis of a target amount and target attainment in percent. Payment of such compensation can also lapse entirely if targets are missed. The structure of this variable compensation is based on predefined targets for revenue and EBITDA from normal operating activities.

Share-based payment

The Management Board members can receive share-based payment from a Management Equity Program (MEP). In the reporting period no personnel expenses resulting from equity-settled share-based payments were attributable to members of the Management Board.

This program is explained below.

In connection with the takeover of shares in the Scout24 Group by Hellman & Friedman LLC (H&F), a management participation program was established in the 2014 financial year.

Management Board members, additional managers and employees of the Advisory Board (hereinafter: participants) of the Scout24 Group were granted the possibility, commencing in the previous year, to indirectly acquire shares in the Scout24 Group via a specified structure.

The purchase price for the transfer of the shares to the management participation companies was determined under consideration of the purchase price of the Scout24

Group as of February 12, 2014 and represents the extrapolated value at the time of the acquisition.

In the event of the sale of shares in Scout24 AG or in the event of their leaving the company, the participants receive payments at market value to the extent that they accrued vested equity:

- The preferred shares acquired from the participants are fully vested at the time of the acquisition.

- The common shares acquired from the participants are vested on a staggered basis and with respect to the generated sales proceeds from common shares. These are paid on an extended basis. One year after the acquisition of the shares, the payout amounts to 20%, with this amount increasing by 5% each further quarter.

In addition, the articles set rules for the management participation companies, according to which, in the case of a withdrawal of a participant, the participant receives for the non-vested portion either the purchase price or market value, whichever is lower.

In particular, the following rules are relevant:

- A participant withdrawing as a "preferred leaver" (withdrawal due to death, or classification by the company's Advisory Board as a "preferred leaver") receives market value for restitution of his shares.

- A participant withdrawing as a "good leaver" (withdrawal due to classification by the company's Advisory Board as a "good leaver", and no subsequent breach of contractual duties or non-competition agreement) receives in the first five years since the formation of the company for the restitution of his shares an amount consisting of market value and purchase price. For the portion that is vested, the participant receives the market price; for the portion that is not vested, he receives either the purchase price or lower market value, whichever is lower.

- A participant withdrawing as a "bad leaver" (termination by the participant, or termination of the employment by the company for good cause, or due to private insolvency of the participant) receives as payment for the restitution of his shares either the purchase price or market value, whichever is lower.

The participants and management participation companies are subject to various disposal restrictions:

- The participants are only permitted to sell or otherwise dispose of their investments with written approval from Asa HoldCo.

- The shares held by the management participation companies are subject to a "drag-along, tag-along" rule. In the event of a share sale, Asa HoldCo and DTAG can request from the management participation companies that they should not sell their shares to third parties on terms less favourable than Asa HoldCo and DTAG. Each individual participant has the right to the simultaneous sale of the shares attributable to him,

whereby the conditions are not permitted to be less favourable than those from sales of Asa HoldCo and DTAG.

The determination of the fair value of the ordinary and preferred shares is performed applying an option pricing model (Black-Scholes formula). The model reflects the equity value derived from acquisition of the Scout24 Group as of February 12, 2014, the exercise price based on the nominal value of the preferred shares with interest accumulated annually, and the expected term of the granted equity instruments. On the basis of the data from the German Bundesbank, a risk-free rate of 0.15% was applied as of the valuation date as of February 12, 2014, which had been derived from hypothetical zero-coupon bonds without credit risk with the assumed remaining term of the equity instruments. Due to the lack of observable volatility in the market, recourse was made to listed companies similar to the Scout Group. Annual volatility of 30% was determined in this context. Additional parameters and expected dividends were not included in the fair value measurement.

Before the IPO that was implemented on October 1, 2015, Asa NewCo GmbH was converted into a public stock corporation ("Aktiengesellschaft" under German law) on September 10, 2015, bearing the name Scout24 AG. Only one class of share in this public stock corporation now exists.

The preferred shares and the participants' common shares were consequently aggregated to form one share class.

The allocation of the shares to the participants was based on the issue price for the new shares:

The value of the participants' equity was derived from the issue price, and allocated to the common shares and preferred shares according to a mechanism determined in the company agreement, in order to determine the participants' value in the newly created share class.

As part of the IPO, the participants utilised their entitlement to sell all of their vested preferred shares and 50% of their vested common shares.

Pension expense

Scout24 AG pays its Management Board members fixed pension fund contributions for the duration of their employment contracts, or grants pension payments to existing commitments to employee pension schemes. Besides this, the company itself has entered into no pension contracts for Management Board members, or granted pension commitments.

Ancillary benefits

Ancillary benefits include mainly rent costs subsidies, costs assumed for flights home, compensatory payments for waiving the utilisation of a company car, and reimbursement of health and long-term care insurance policies equivalent to the maximum monthly amount that the company would be required to pay for statutory health and long-term care insurance. Non-cash benefits consist in participating in group accident and term life

assurance cover. Management Board members are insured as part of Group-wide insurance against invalidity risk with an insurance sum of EUR 400 thousand (EUR 1,000 thousand given full invalidity), and with an insurance sum of EUR 500 thousand in the case of a fatal accident.

Special payment

At the Supervisory Board's discretion, Management Board members can be granted special payments for extraordinary services during the financial year. Such special payments cannot exceed three times the one-year variable compensation.

Limitation on total annual compensation

Annual compensation consisting of all compensation components including pensions, special payments and ancillary benefits of any type is limited in the case of Mr. Ellis to a maximum amount of EUR 2,437.5 thousand gross, and in the case of Mr. Gisy to a maximum amount of EUR 1,300 thousand gross.

Payments at the end of Management Board activity

For the instance of early termination of employment contracts by the company without important reason, the Management Board employment contracts include a settlement commitment equivalent to two times annual compensation including any ancillary benefits, albeit to a maximum of the compensation that would be paid until the end of the contract.

Post-contract prohibitions on competition exist with the Management Board members that include compensation to be paid by the company for the duration of the existence of the post-contract prohibition on competition for a two-year period. If this is applied, the Management Board members in each case receive monthly compensation for the duration of the post-contract competitive prohibition equivalent to half of the last fixed compensation paid, including any ancillary benefits.

Mr. Ellis is required to subtract other income from the compensation payment to be paid to him.

Mr. Gisy is required to subtract other income from the compensation payment to be paid to him. If the total amount consisting of compensation payment and settlement payable in the case of termination of the Management Board contract (irrespective of whether such termination is due to expiry, or early termination as a result of regular termination by the company), and in the case of a full two-year competitive prohibition period, not correspond to 100% of the fixed salary last paid to Mr. Gisy (plus the amount for a company car and payment to the employee pension scheme), Mr. Gisy is entitled to payment of the difference as further severance payment.

The company is entitled to waive the prohibition on competition. In such an instance, the compensation payment reduces pro rata temporis from the waiver date.

As part of the Management Board contract with Mr. Ellis, the regulation also exists that, in the case of the termination of his Management Board activity, Mr. Ellis shall receive an

amount of EUR 50 thousand as lump-sum compensation of outlays for the relocation of his family to Australia.

D&O insurance

The Management Board members are included in pecuniary loss liability insurance cover (directors & officers / D&O insurance). This D&O insurance covers personal liability risk for the instance that claims for financial losses are brought against Management Board members as part of exercising their professional duties for the company. In this context, the Management Board members are subject to a deductible equivalent to 10% of the loss, limited to up to one and a half times their annual fixed compensation.

Compensation paid to former management members

No compensation was paid to former Management members in the financial year under review (previous year: EUR 644 thousand).

Changes to the compensation structure from 2016

The one-year variable compensation granted in the 2015 financial year will be replaced from January 1, 2016 by one-year variable compensation whose target amount stands at 50% of the previous target amount. The Supervisory Board determines the targets and their weighting at the end of each financial year for the next year and informs the Management Board in writing. The targets can be financial targets (e.g., annual revenue growth rate, adjusted EBITDA growth rate and cumulative free cash flow) and/ or non-financial targets. The target amount for the one-year variable compensation is EUR 281.25 thousand gross for Mr. Ellis and EUR 150 thousand gross for Mr. Gisy if the targets have been achieved (100%). The Supervisory Board determines the exact amount at its own discretion, taking into account the achievement of the targets and recommendations of the Supervisory Board's Executive Committee. The Supervisory Board also determines whether and to what extent the entitlement is increased in case of an over-achievement of the targets.

From 2016, multi-year variable compensation will also be granted whose target amount corresponds to the one-year variable compensation. The Supervisory Board determines the targets and weighting for the Board Member's multi-year variable compensation at the end of each financial year for the next three years and informs the Management Board in writing. The targets can be financial targets (e.g., multi-year revenue growth rate, multi-year adjusted EBITDA growth rate and multi-year cumulative free cash flow) and/ or non-financial targets. The target amount for the multi-year variable compensation is EUR 281.25 thousand gross for Mr. Ellis and EUR 150 thousand gross for Mr. Gisy for each three-year period if the targets have been achieved (100%). The Supervisory Board determines the exact amount at its own discretion, taking into account the achievement of the targets in the first financial year of the respective three-year period and recommendations of the Supervisory Board's Executive Committee. The Supervisory Board also determines whether and to what extent the entitlement is increased in case of an over-achievement of the targets. After

the Supervisory Board approves the financial statements for the first financial year of each three-year period, the Board Members are granted an advance payment for the multi-year variable compensation. Possible deviations are due at the end of the three-year period.

The company has not advanced to the management board any loans or stood personal guarantor and/ or provided any other guarantees.

In addition, Mr. Axel Lützner was on the Advisory Board of Asa NewCo GmbH until the company was transformed into Scout24 AG.

The office of the Advisory Board ended with entry of the change in legal form in the trade register. The members of the Advisory Board were discharged from liability.

In accordance with the articles of association the Supervisory Board consists of nine members.

The compensation paid to the Supervisory Board is based on the corresponding provisions contained in the company's articles.

The Supervisory Board members receive annual fixed compensation of EUR 80 thousand. In addition, Supervisory Board members receive reimbursement of all expenses, as well as reimbursement of all VAT payable on their compensation and expenses. No special payments and meeting fees are granted. Besides this, the Supervisory Board members have committed themselves to utilising 26% of their compensation to purchase shares in

Scout24 AG. The Supervisory Board members who have waived their entitlement to fixed compensation payments are presented in the adjacent table.

The Supervisory Board members in office were appointed to the Supervisory Board as part of the change of the company's legal form on September 4, 2015, with compensation for this period being granted pro rata temporis. An Advisory Board existed as a voluntary supervisory body until the company's change of legal form. If Supervisory Board members also belong to the Advisory Board, and have received share-based compensation in their function as Advisory Board members, this is disclosed in the following table.
