WHAT DATA DOES SCOUT24 AG PROCESS AND WHERE DOES IT GET YOUR DATA FROM?

1. Data that we collect from the share register or from credit institutions

The shares of Scout24 AG are registered no-par-value shares. In the case of registered shares, Section 67 of the Stock Corporation Act (AktG) provides for the entry of the name, date of birth, postal address and electronic address of the shareholder and the number of shares in the Company's share register. The shareholder is generally obliged to provide this information.

The banks involved in the acquisition, custody or sale of your Scout24 AG shares regularly forward this information and other details relevant to the keeping of the share register (e.g. nationality, gender and submitting bank) to the share register. This is done via Clearstream Banking Frankfurt, which, as the central depository, handles the technical settlement of securities transactions and the safekeeping of the shares for credit institutions.

2. Data that we collect in preparation for and during the Annual General Meeting

In addition, we also process information on questions sent to the Company via the Shareholder Portal, on countermotions and election proposals and other requests by shareholders or their proxies submitted in relation to the Annual General Meeting, and on your voting behaviour.

If you act as a proxy for a shareholder, we will receive your personal data from the shareholder who has granted you the power of attorney and directly from you if your conduct at the virtual Annual General Meeting is affected.
